

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1.(Currently amended) A method of providing image goods and/or services to more than one party located at different locations, comprising the steps of:

providing a camera for substantially simultaneously capturing an image both electronically and on a photosensitive media by a customer;

transmitting said electronic image to a third party at a location remote from said customer along with additional data, said additional data identifying said image with respect to said photosensitive media;

said customer and/or said third party having the ability for placing an order with a service provider for at least one good and/or service with respect to said image on said photosensitive media associated ~~with~~ using said electronic image prior to said service provider receiving said photosensitive media; and

said service provider assembling the order upon receipt of the photosensitive media.

2.(Original) A method according to claim 1 wherein said additional data comprises a database location at which said order may be electronically accessed by said service provider for determining if additional orders exist with respect to said images.

3.(Original) A method according to claim 1 wherein said customer advises said service provider that said image has been forwarded to said third party for potential placement of an order with respect to said image.

4.(Original) A method according to claim 3 wherein said customer forwards to said service provider the e-mail address of said third party to which said digital image has been forwarded.

5.(Original) A method according to claim 4 wherein said service provider forwards electronically to said customer and said third party confirmation that said order has been received.

6.(Original) A method according to claim 1 wherein said customer provides a predetermined amount of credit which may be charged to said customer with respect to the ordering of goods and/or services by said third party.

7.(Original) A method according to claim 1 wherein said information forwarded to said third party further includes a computer software program whereby the order can be automatically forwarded to said service provider by said third party by selecting from pre-designated options provided in addition to said images.

8.(Original) A method of providing image goods and/or services to a plurality of customers located at different locations, comprising;

providing a camera for substantially simultaneously capturing an image both electronically and on a photosensitive media by a customer, said electronic image comprising a predetermined image resolution, said camera having a selection switch for identifying that digital images are to be forwarded to a third party for ordering of goods and/or services made using said photosensitive media;

transmitting said electronic images to said third party along with identifying data with respect to said images transmitted;

said third party placing an order for goods and/or services with respect to said images on said photosensitive media using said digital images from which the order may be placed; and

said information being forwarded to said service provider prior to execution of providing goods and/or services with respect to images on said photosensitive media.

9.(Currently amended) A method of providing image goods and/or services to more than one party located at different locations, comprising the steps of:

providing a camera for capturing a high resolution image by a customer;

transmitting a low resolution electronic image to a third party at a location remote from said photographer along with additional data, said additional data identifying said low resolution electronic image with respect to said high resolution image;

said customer and/or said third party having the ability for placing an order with a service provider for at least one good and/or service with respect to said high resolution image associated ~~with using~~ said low resolution electronic image prior to said service provider receiving said high resolution image; and

said service provider assembling the order upon receipt of said high resolution image.

10.(Original) A method according to claim 9 wherein said additional data comprises a database location at which said order may be electronically accessed by said service provider for determining if additional orders exist with respect to said images.

11.(Original) A method according to claim 9 wherein said customer advises said service provider that said image has been forwarded to said third party for potential placement of an order with respect to said image.

12.(Original) A method according to claim 11 wherein said customer forwards to said service provider the e-mail address of said third party to which said digital image has been forwarded.

13.(Original) A method according to claim 12 wherein said service provider forwards electronically to said customer and said third party confirmation that said order has been received.

14.(Original) A method according to claim 9 wherein said customer provides a predetermined amount of credit which may be charged to said customer with respect to the ordering of goods and/or services by said third party.

15.(Original) A method according to claim 9 wherein said information forwarded to said third party further includes a computer software program whereby the order can be automatically forwarded to said service provider by said third party by selecting from pre-designated options provided in addition to said images.
